proud to be a part of it

Our Mayor, Heidi Herzberg, was recently appointed to serve as Chair of the Florida League of Cities' Policy Committee for Utilities, Natural Resources and Public Works. "It's an honor to chair the League's Policy Committee for Utilities, Natural Resources and Public Works after serving on it for five years. It's crucial to address municipal concerns like natural resources, water quality and quantity, stormwater and reuse, hazardous and toxic waste, solid waste, and this year's focus—trees," she said.

The Florida League of Cities serves the state of Florida as the united voice for Florida's municipal governments. Chairs from each of the League's policy committees serve on FLC's Resolutions and Legislative Committee. Proposed priorities adopted by each policy committee will be submitted to the Legislative Committee and then ultimately become the League's Legislative Action Agenda. Through her contributions on these committees, Herzberg will help develop the League's Action Agenda, detailing priority issues most likely to affect daily municipal governance and local decision-making during the upcoming legislative session, as well as help League staff understand the real-world implications of proposed legislation. Committee members are also asked to serve as advocates for local decision-making throughout the legislative process.
